

EMPOWERMENT, MOTIVATION AND LEADERSHIP

DURACIÓN: 10 horas

CRÉDITOS ECTS: 0

OBJETIVOS

This course looks at three different elements in business management: Empowering employees, Motivation and Leadership.

Each section has key vocabulary and expressions as well as a definition of the term and reading or listening exercises to give more information on the topic.

Using some of the main theories surrounding the three areas such as Maslow's hierarchy of needs, Alderfer and the Three Needs theory, students will learn more about the theoretical aspects surrounding empowerment, motivation and leadership. Lessons use matching, gap fill and comprehension exercises to provide comprehensive practice on both the content and the language used.

Specific lessons on managing talent, responsible leadership and growth mindsets take a deeper look at different areas on these themes, with a speaking lesson to provide practice in talking about work.

The course ends with a review of all the vocabulary related to the three main areas covered, as well as providing the chance to revisit the texts and definitions in order to have a clear idea of both the content and the theories covered.
