

## AI English Masterclass & Practice A1.1

DURACIÓN: 30 horas

CRÉDITOS ECTS: 0

### OBJETIVOS

This course for beginners presents the fundamental aspects of the English language, with content at the A1.1 level of the CEFR. By covering the essential grammar and vocabulary to introduce oneself, greet other people, talk about numbers and make basic sentences in the present simple tense, the course gives learners the necessary tools to start using the language straight away.

Each unit starts with one or more Masterclasses, with an AI teacher presenting new grammatical or lexical content. Learners then use this information to participate in role-play and conversation activities, which encourage them to use the language spontaneously and meaningfully from the very start of the course.

The writing and speaking assignments that follow offer the chance to use the language in a range of situations. The student needs to follow the instructions to create short written and spoken texts, which allow them to reuse the new language independently.

The course also includes periodic tests to assess progress, and an AI final test contains a range of exercises to check the student's comprehension of the objectives covered in level A1.1.

### PROGRAMA CONTENIDOS
