AI English Masterclass & Practice B2.1

DURACIÓN: 30 horas	CRÉDITOS ECTS: 0

OBJETIVOS

This course for intermediate learners presents vital aspects of the English language, with content at the B2.1 level of the CEFR. By covering the essential grammar and vocabulary needed to talk about past habits and states, form questions and refer to finished or continuing actions in the future, the course gives learners the necessary tools to start using the language straight away. Learners also see how to give effective instructions, express opinions and talk about parts of a car.

Each unit starts with one or more Masterclasses, with an AI teacher presenting new grammatical or lexical content. Learners then use this information to participate in role-play and conversation activities, which encourage them to use the language spontaneously and meaningfully.

The writing and speaking assignments that follow offer the chance to use the language in a range of situations. The student needs to follow the instructions to create short written and spoken texts, which allow them to reuse the new language independently.

The course also includes periodic tests to assess progress, and an AI final test contains a range of exercises to check the student's comprehension of the objectives covered in level B2.1.
